

**FILL IN SECTIONS A-D IMMEDIATELY AFTER THE OPERATION !**

**TO BE FILLED IN BY TRAINING SURGEON**

**A. SURGEON**

A1 Name of Surgeon

A2 This is my th laparoscopic colorectal resection and the th within the programme

**B. PATIENT**

B1 Patient identification number

B2 Initials

B3 D.O.B.

B4 Gender  male  female

B5 Operating date

B6 Height  cm

B7 Weight  kg

B8 ASA Grade  I  II  III  IV

**C. OPERATION**

C1 Urgency  Elective  Emergency

C2 Diagnosis  Benign polyps  Cancer  IBD  Diverticulitis

C3 Prior abdominal surgery  Yes  No

C4 Resection  R/hemi  L/hemi  Transverse Colectomy  Sigmoid Colectomy  
 Hartmann  Anterior Resection  Low Anterior Resection

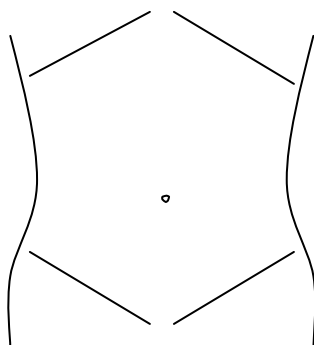

C5 Anastomosis  intracorporeal  extracorporeal

C6 Intraoperative findings  Abscess  Fistula  Phlegmon  Adhesions

C7 Conversion to open  Yes  No

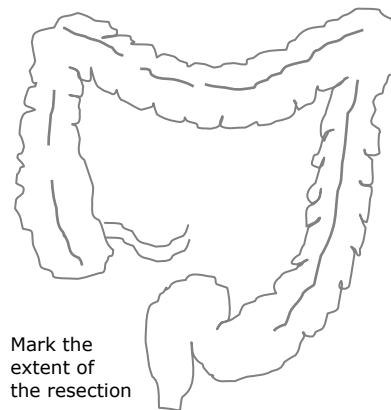

C8 Reason for conversion  Equipment problem  Bleeding  Exposure/Anatomy  Bowel perforation

C9 Port location

**X** main camera port  
**●** Working ports

C10 Resection

Mark the extent of the resection

C11 Division of the following vessels:

- R/colic or ileocolic
- R/branch of middle colic
- L/branch of middle colic
- L/colic
- sigmoid
- IMA
- Superior rectal
- Middle rectal

## D. SELF-ASSESSMENT (DOPS)

1 Not performed, step had to be done by trainer  
 2 Partly performed, step had to be partly done by trainer  
 3 Performed, with substantial verbal support  
 4 Performed with minor verbal support  
 5 Competent performance, safe (without guidance)  
 6 Proficient performance, couldn't be better

### EXPOSURE

D1 Correct theatre setup                    1     2     3     4     5     6

D2 Appropriate patient positioning        1     2     3     4     5     6

D3 Safe access technique                    1     2     3     4     5     6

D4 Exposure of operating field              1     2     3     4     5     6

### VASCULAR

D5 Safe dissection of vascular pedicle    1     2     3     4     5     6

D6 Dissection of mesentery                 1     2     3     4     5     6

D7 Identification of ureter or duodenum    1     2     3     4     5     6

### MOBILISATION

D8 Completion of mesenteric dissection   1     2     3     4     5     6

D9 Safe dissection of bowel                 1     2     3     4     5     6

### ANASTOMOSIS

D10 Safe extraction of specimen           1     2     3     4     5     6

D11 Anastomosis                                1     2     3     4     5     6

### OVERALL PERFORMANCE

D12 Overall performance                    1     2     3     4     5     6

D13 How difficult was this operation        1     2     3     4     5     6

(1=very easy, 6=very difficult)

## E. POSTOPERATIVE COURSE

E1 Abdominal complication    none                    Anastomotic leak                    bleeding/hematoma  
    abdominal sepsis (superficial/deep)    postoperative ileus                    bowel obstruction  
    .....(other)

E2 Medical complication    none    Chest infection    UTI                    Cardiac event                    Stroke

E3 Reoperation                    Yes                    No

E4 Readmission for complication    Yes                    No

E5 Hospital stay                       days

E6 Intra-hospital death                    Yes    No    \*date of death   /   /

## F. REQUIRED MATERIALS

F1 Histopathological report attached                   

F2 Full-length video (DVD) included                   

F3 Surgeon's consent form attached                   

F4 Patient's consent form attached
